

ER-Rail Hand Rail System

The ER-Rail system is a warehouse safety barrier that is an economical and practical solution to control the movement of pedestrians. Rails are sold separately with optional surface mount or below ground posts, brackets (fixings supplied) and accessories available to allow for post and wall mounted installation. Designed to comply to AS 1657:2013 for balustrades and handrails when installed using ER-Rail mounting brackets.

PART No.	DESCRIPTION
ER8030-2PA	ER-Rail 80 x 30mm x 2mtr with end caps – Powder coated aluminium
ER8030-3PA	ER-Rail 80 x 30mm x 3mtr with end caps – Powder coated aluminium
ER8030-6PA	ER-Rail 80 x 30mm x 6mtr with end caps – Powder coated aluminium
ERSJ20	ER-Rail connectors
ER8030-IS	ER-Rail infill strip 2 metres long – Natural anodised aluminium
ERG1200-PA	ER-Rail gate assembly (see page 62)
C63SME	Surface mount bollard – 63.5 x 1.6 x 1000mm (3.7kgs)
C63BGE	Below ground bollard – 63.5 x 1.6 x 1000mm (3.7kgs)
C90SME	Surface mount bollard – 90 x 3.2 x 1000mm (8.2kgs)
C90BGE	Below ground bollard – 90 x 3.2 x 1000mm (8.8kgs)
