

Removable Bollards

Surface Mount Tee-lok

Surface mount removable bollards are designed for applications where the floor cannot be core drilled or penetrated. For example, clean areas such as food preparation or pharmaceutical processing. Tee-lok uses our unique 'T' handle key to unlock and remove the bollard from the receiver shoe. Ideal for traffic management. **Note:** Bollard and receiver shoe sold separately.

Receiver shoes

'T' handle key

STYLE	PART No.	A	B	C	D	E	Kgs	FINISH
1	SMTL*	90	950	5	200	20	12	HDG+PC
