

Skinz One-Piece Bollard Sleeves

Say no more to ugly, scratched or rusting bollards! Our tough moulded polyethylene sleeves offer improved impact resistance and cost less than prepping and repainting old bollards. Skinz are available in a range of sizes that fit most common bollard sizes and brands. Fitting takes seconds and they can be cut down to suit different bollard heights. Reflective tape kits are available on request.

Flip over to page 8 for our Gal-Plus Bollards with Skinz.
