

Bike Rack – Style 4 Galvanised Steel Wall Mounted

A sturdy mild steel and hot dip galvanised bike rack designed to be wall mounted to accommodate 1 full size bicycle with the ability to lock one wheel and the frame for total security. The bike is suspended on plastic coated prongs to protect the rims from possible damage. Can be used indoors or out. While galvanised is the standard finish, powder coating is also available on request.

Powder coated colours available on request. Charges will apply.
