

KELRYAN

316 Grade Stainless Steel Bollards

Marine 316 stainless steel bollards offer a high level of performance in harsh environment conditions, including where there will be exposure to salt air. The polished surfaces and machine finished flats caps present an aesthetically pleasing finish in architectural environments. Optional CNC ring plates are available for surface mounted models to conceal mounting hardware.

Round 316 Stainless Steel Bollards are available in three different diameter sizes. Then those sizes are available in three different mounting options including surface mount, below ground or core drill models to suit the preferred installation finish.

KELRYAN

316 Grade Stainless Steel Bollards

Part No.	Description
KR90SM-SS	90mm Surface Mount Bollard - 316 Grade Stainless Steel Bollard
KR90CD-SS	90mm Core Drill Bollard - 316 Grade Stainless Steel Bollard
KR90BG-SS	90mm Below Inground Bollard - 316 Grade Stainless Steel Bollard
KR140SM-SS	140mm Surface Mount Bollard - 316 Grade Stainless Steel Bollard
KR140CD-SS	140mm Core Drill Bollard - 316 Grade Stainless Steel Bollard
KR140BG-SS	140mm Below Inground Bollard - 316 Grade Stainless Steel Bollard
KR140B-SS	140mm Bevelled Top Core Drill Bollard - 316 Grade Stainless Steel Bollard
KR168SM-SS	165mm Surface Mount Bollard - 316 Grade Stainless Steel Bollard
KR168CD-SS	165mm Core Drill Bollard - 316 Grade Stainless Steel Bollard
KR168BG-SS	165mm Below Inground Bollard - 316 Grade Stainless Steel Bollard
KCL140SS-RP	CNC Ring Plate for 140mm Stainless Steel Bollards - 316 Grade SS

Note: 168mm Diameter stainless steel bollards are a special order item.
