

Heavy Duty Polyethylene Speed Hump System

Manufactured from a high-tech LLDPE with solid colour, heavy duty, it will not fade, rot, rust or crack and has built-in prismatic reflectors for enhanced night visibility. Suitable for car parks, schools, shopping centres, factory complexes or anywhere it is desired to control the speed of vehicles. Designed and developed in Australia to comply with Australian Standards AS/NZ S2890.1:2004 for local conditions.

Manufactured from environmentally friendly high-tech polyethylene (LLDPE).
